

Our translators in Big Spring TX is very important to us. Please do not replace it with Low Power FM. We are unable to receive any Christian radio programming without translators. I have this station playing via translator in my home and cars all day, every day. It would impact my life in a very negative way to have the translator replaced by LPFM. I also know there are hundreds of thousands of listeners who would be equally adversely affected including many in my own family around the country. The programming provided in our community by translators is extremely important. Many businesses play them during the business day. They provide uplifting and positive music, news and information to our community. Thank you for your time and consideration. Praying that you'll preserve the translator service and keep my station on the air, Shelly Sherrod
